### **Applications and Software used for presentation:**

[Animationish](#): Kindergarten ABC's, 2nd Grade National Symbols, 1st and 2nd Grade Plants (Parts and Needs)

- Students can save their projects as a movie file (Flash, Avi, Quicktime).

[EduGlogster](#) (It now costs to set up a class, but it isn't much and it is a great application.) 3rd Grade Oregon Trail glogs, 4th Grade weather glogs

Google Sites 5th Grade WWII websites, also created Google Forms to have classmates complete as they read the information on the websites

[PhotoStory 3](#) (It says it is for XP but it does work on Windows 7) 3rd and 4th Grade Health and Personal Hygiene movies, 3rd Grade Oregon Trail, 1st Grade Bike Safety, 5th Grade Ten Things About Me

[Prezi](#) (When you select "Sign Up" scroll down to "Student/Teacher Licenses") 5th Grade decade projects

- If you add a movie to Prezi, it needs to be in Flash. We use [Format Factory](#) to convert videos (you can also convert audio files with this).

[Windows Movie Maker](#) (It does work on Windows 7, you can also use Windows Live Movie Maker) 5th Grade Children of War, 5th Grade Civil Rights, 4th Grade Drug PSA's, Body Systems

- [Audacity](#) is used for the voice and music in our projects.

[Link to Griswold Elementary Student Projects](#) (Check back - I try to add more projects periodically)
